Total bottles produced: 2037 (750 ml)

First selling day: April, 2005

Alcohol content: 14,0%

Total acidity: 5,9 gr/l

pH: 3,54

Poliphenols: 2,9 gr/l expressed in
gallic acid

Dry extract: 34,1 gr/l

The Rosso di Montalcino is produced with grapes coming from the youngest vineyard. Its color is dark ruby red. The aromas are fresh and fruity, with some inklings of tertiary scents. A firm structure, that shows already great roundness, supports the considerably high alcohol content in perfect equilibrium.
