**pH:** 3,67

**Poliphenols:** 4023 mg/l expressed in  
gallic acid

**Dry extract:** 34,5 gr/l

---

*The wine shows a deep, youthful red, tending to ruby. Rich, well-ripened fruit is surprisingly intense on the nose, with compelling and seductive fragrances.*

*The entry reveals a superb structure and a palate of spacious proportions, but one with a velvet-smooth tannin weave, rounded texture, and developed qualities that are still in vigorous evolution. In sum, a young, self-confident wine, one to be enjoyed tonight or one to consign to future dreams of a well-cellared, long-lived red.*
